PRASADI SOUVENIR 2076

EDITORIAL

We are really proud and exuberant to acclaim that we are ready with all new hopes and hues to bring out the latest issue of Prasadi Academy souvenir i.e. **Prasadi Souvenir 2076**, which is going to unfold the unraveled world of the most unforgettable and precious moments of the students. Thanks to the tenacious exertions of the students and the faculties for bringing out this souvenir into its final form. It has shielded lots of topics extending from messages from the upright dignitaries of our nation, from chief, interview of celebrity, snaps, artistic articles, poems, retentions and familiarities.

In this connection, it is to be viewed as a launch pad for the students' creative urges to blossom naturally. This souvenir is indeed a pious attempt to make our budding talents give shape to their creativity and learn the art of being aware because success depends upon our power to perceive, the power to observe and the power to explore. We are sure that the positive attitude, hard work, sustained efforts and innovative ideas exhibited by our students will surely stir the mind of the readers and take them to the surreal world of unalloyed joy and pleasure. We have put in relentless efforts to bring excellence to this treasure trove. Portraying the moments of their two academic sessions in Prasadi, in nostalgic tone, is a beauty of this book. It would not be otherwise if we say Publication of the souvenir has been unalienable part of Prasadians. Helen Keller rightly says that the world is moved along not only by the mighty shoves of its heroes, but also by the aggregate of the tiny pushes of each honest worker.

Thanks are due to our seniors for maintaining of the magazine's publication over the past 20 years. This herculean task of publishing magazine would not have been possible without the sincere support of the students and concerned personalities who have toiled to keep the academic faculties. This souvenir wouldn't have been possible without support and encouragement of our respected Chief Sir. Once again, thanks to all of the helping hands for their every support in the final preparation of this souvenir.

21

YEARS OF
EXCELLENCE

Where care is culture...

The Prime Minister

KATHMANDU
NEPAL

Message

I am pleased to know about the publication of 21st edition of '*Prasadi Souvenir 2076*'.

Education is the foundation for development. There is a link between education and progress. I am happy to learn that Prasadi Academy has been providing quality education and contributing to academic progress in the country since its establishment in 2055 BS. At a time when the country is moving ahead with the national resolve of 'Prosperous Nepal, Happy Nepali', such education can provide a lot in the realization of it. We can make it possible working together.

I believe that the Academy will always gain trust of general public through its quality education and the activities it has been carrying out aiming at fulfilling social responsibility. I wish every success of the Academy to grow further and contribute remarkably to the development of society in the days to come. I encourage Prasadi Academy to keep on holding and materializing its main slogan 'Care is Culture', and producing capable citizens who can flow into the main stream of the workforce to lead Nepal towards prosperity.

Congratulations to the entire team of Prasadi Academy.

Message

I am pleased to know that **Prasadi Academy Secondary School, Lalitpur** is going to publish a **Prasadi Souvenir 2076** on the occasion of its 21 anniversary entailing students' academic and creative writings. I think, It is a wonderful souvenir that allows students to unfold their deepest emotions, feelings and dreams.

I am mindful of the significance of education that provides inner light to human beings and helps them to explore their full of potentials and illustrate the way to utilize the gained knowledge, skills and attitudes throughout the life. Life without education is like that of flower without a scent. While there has been great investment in education by government and private sectors, the focus is often on the result only. It is hugely important that education is inclusive; celebrating the rich diversity in culture, language, religion and ethnicity which Nepal is home to. Not only access, but also participation and learning must be equitable and inclusive.

Knowledge becomes impaired if there is no moral behavior and so I am really glad to know that at Prasadi Academy, there is a culture of respecting the moral and ethical values of individual, cultural and natural phenomenon. I also agree the Education without moral values cannot drive society in the right direction and this should be the concern of all schools run, whether they are private or public schools.

I am confident that the Souvenir, will incorporate thoughtful, analytical and creative articles from students. I extend my cordial greeting to the Prasadi family and wish the publication much success.

I wish you all the best.

Thank You

Hon, Girirajmani Pokharel

Message

It is with a sense of delight that I convey this message of best wishes on behalf of NEB that I am very happy and feel privileged to know that Prasadi Academy Secondary School, Lalitpur is putting out its souvenir, which is full of countenance prepared by its students and the dedicated team.

With gratitude, a heartfelt thanks to the Academy for the completion of its 21 years' excellence of service with high commitment to provide academic excellence to meet the pace of quality education. I believe that, this spirit of the academy certainly would contribute a lot in the educational field of Nepal.

Lastly, I am delighted to express my words of wishes on your institution progress and prosperity. I believe that, Students' innovative and their brief introduction in the book would be yet another breakthrough for the institutions overall development.

I look forward your every success.

Thank you.

(Prof. Dr. Chandra Mani Paudel)
 Chairperson

Prof. Chandra Mani Paudel, Ph.D.
Chairman
National Examinations Board, Nepal.

PRASADI: A WONDERFUL EXPERIENCE

I still remember the first day; the day when it all started; Shrawan 2nd 2074. I had always wished to study in Prasadi since Grade 8. I didn't try in any other high school but joined Prasadi straight away. It is a great place for those who actually want to study but not for those who consider high school to be a place just for fun and entertainment. Prasadi is the place where you can meet your inner "You"; where you can discover your own capabilities and where you can fight with your own self. It is the place that teaches you the meaning of a single minute. How just one minute late to college can make you stand for a whole period or how that extra one minute turns out to be a boon for you during exams. At first I was a little uncomfortable with those rules and regulations but as I went into the depth I found them entertaining. I experienced true wilderness being limited only to those rules and regulations. What I adore the most about Prasadi is its teaching environment. Those experienced and well qualified teachers made the school much easier. SH sir and SSA Ma'am will always remain in my favourite teacher's list. The thing that fascinates me about Prasadi is how it enhances one's personality and learning ability. I will never forget those tough

competitions for maintaining rank top 3 or for receiving "Student of the Month". My two years in Prasadi passed like a blink but left lots of memories behind. It's the time to bid goodbye for those wonderful journeys. This wonderful experience in Prasadi will be cherished forever.

DESTRUCTIVE THINGS YOU SHOULD STOP DOING

At this point of time, we all are young. We are going to make a lot of dumb decisions but we learn from our mistakes. But as you mature up, your decisions slowly start getting better. To be completely honest, this is the time when we actually start getting our things together. However, I always had to learn things the hard way. Assuming you are smarter than me, let me tell you about some things you should stop doing so that you won't have to learn things the same way.

The first and the foremost thing that you should stop doing is using your age as an excuse. Believe it or not, everyone has done it in some or other point when the feeling of 'unachievable' has stricken. When you use age as an excuse, when you can't achieve or accomplish, you have already taken a step back from the way. But now, you are a grown-up fellow and this is the right time, to start moving forwards.

Moving towards the second thing; stop blaming your parents for everything. It's not your parents' fault that you are an angry person. It might be one of the reasons but the thing is you have 100% control on how you handle your life, situations and people. You are capable to make right decisions on your own. Your parents have nothing to do with someone pissing you off or messing you up. You are the only one who is responsible for it. There is a famous phrase "Deal with it!" Most parents try to do their best for children and even if the children screw up, the

parents always help and support them. If you feel your parents have done anything wrong, just forgive them because they just care so that you won't screw up.

So, stop blaming them.

You should also stop eating junk food. As you grow up, your body metabolism is not going to support you. The better you have your eating habits, the better it is going to support you in a long term. Eat well and you'll be good. Moving on towards fourth thing, stop abusing things. You need each and every bit of where you are and want people to help you and be with you when you need them. But after a certain period of time, you start to abuse them, treat them poorly like they have never done any good to you or treat them like what they did was nothing worth. Same thing goes with each and everything you use in our life.

Fifth thing, and this might be one of the most important thing, that is, stop wasting money. Stop using those bills to buy sneakers, accessories and things you want by confusing them as the things you need.

You should start saving and prioritize on using things which you have to their fullest. Don't be afraid to change or modify the look of your belongings. Find out where you can use them and believe me; you will definitely be saving a lot.

The next thing you should probably stop right now is being a douche bag. Stop being lazy and stop procrastinating. Clean your room, your bed, your place. You might not be aware how you work, do things depend upon the environment where you stay. Keep

yourself and your surrounding clean. You'll definitely feel fresh and motivated.

So you have reached here and this is definitely going to be one of the most important parts, stop hanging out with losers. There are people that are going to prevent you from moving forward in life. If you want to be successful, then this is the time when you want to stop being engaged with toxic people. They might have been cool or your 'dude'. Look for people who are motivated, who are going places where you want to go or already have been there. Start interacting and engaging with people that are older than you. You've got to learn to communicate. So stop that.

The second last thing you should stop doing is talking like a kid. Stop acting like a kid, stop cursing. You must learn to use your languages, learn to face things right way. You have to stop taking childish decisions because eventually, You won't be going too far with it. It will eventually end up in a state where you will be confused why you even decided to take and be enclosed to it. Start moving more and moving on.

The last thing which you should stop doing is to stop thinking that you are inferior to others. You are beautiful, You are strong . You are capable. Everyone is capable of doing things n their own way. It's just that some people accomplish faster and some people accomplish late. The truth is you are not a robot.

You are not a terminal which follows and does the

exact thing you are commanded to do. You are precious. Stop taking anything personal from someone you are not personal with. Free your mind. Let good things inherit and motivate you. Nothing is worthy without struggle. If you want to accomplish something, be engaged with it. Don't let "others" demolish you.

You can do it. Trust me, you can!

A STRANGER

Tell me your name, Oh! Stranger
Don't run away with a smile.
Don't keep me in daze with your charm
At least give me some of your time.
This dark heart has lived in shadows
Alone and insane I've been.
Lit up my heart with your light
Bright enough till I'm sane.
Your little might be a spark
To the one with no bound of shame.
That little spark is bright enough
To create a fire in my name.

PRASADI HELPS STUDENTS IN EXPANDING WHAT THEY ARE CAPABLE OF.....

Sharing my personal journey this two years, Prasadi has guided me a lot to improve myself personally. I still remember the day when I passed the SEE exam. I had number of options for +2, but I tried hard to join Prasadi because I was well known about the reputation and environment of Prasadi. I feel so proud and glad that I made the right choice because Prasadi is the place where it helps students in expanding what they are capable of.

The incentives that Prasadi provides are the source of motivation for all the students. It encourages students to perform better. Students work hard so that they can get more incentives. I have seen my friends studying late nights for the achievement. Prasadi is one of the best schools of the country. What is the inner desire of the students? The hidden talents are shown here. Prasadi doesn't force you to read and work hard but the environment of Prasadi itself encourages students to read hard. It expands the talent and skills of students. Everyone has capability to overcome others by hard work. Prasadi provides the environment where hard work meets talent. It encourages students to do it more. The systematic rules and regulations are the base of Prasadi. I enjoyed being a Prasadian. I have

improved myself a lot. Sharing my thankfulness to Prasadi for encouraging me to work hard and improving my way of studying which will help in my future days. I am able to expand my way of writing, expressing views, proper punctuality etc.

Now, I can see the real me. Things that were hidden inside have come out. For this I would like to thank Prasadi.

THIS IS IT

It's funny, isn't it? The years go by, but our memories stay strong. High school is a unique experience for everyone. No one has the same stories, events and triumphs of another. There are however, common but meaningful moments of joy and laughter that we can all relate to when thinking back on our transformation years from teen to young adult. My high school years have come to an end. I'll have my last few classes, clear out my Prasadi for the last time and say goodbyes to my classmates and friends until then I'd want to cherish some of my golden memories. So I walked into the premises of Prasadi Academy memorizing everything- the classrooms, my friend's desk, the benches on the ground we sat on and giggled and the memories of the year that all went too quickly. Here I was leaving for the last time. No coming back for signing our practical files or home works, no more thanking the god that it was finally Friday, no more falling over and giggling

with my friends about a stupid prank, no more surprise bag checking. Oh Dear Lord! I will miss this place.

Some of the bitter and sweet memories most of all, the days where you were, day dreaming away, staring at the trees outside or thinking about what you'll do after school ends. Out of nowhere, the teacher calls your name and you didn't even hear the question. Three possible outcomes awaited: you were either clever enough to come up with a guess that might work, or your friend guides you from behind or you sat there dumbfounded while the teacher called on someone else in disgust. Don't worry, it happened to all of us. And the trip which didn't matter where you were going but the best part was the bus ride and the crazy dance. And of course all the respected subject teachers.

Some people say high school is just ordinary where

you study, study and study and nothing else but no, all the experiences from the two years proves it wrong. As the time flies high school is filled with happiness, sadness and brings us a full of excitement. It's like a package gift that you received in your entire life. High school is fun. Fun on that way, you interact with your classmates and forming an allied to do crazy things. It's another great time in your life as a high school student because you gain your freedom, new experiences and new responsibilities. And the time you built and the time you spent together with your classmates, build a strong and harmonious relationship that last for long time. High school is wild and memorable. All in all this, is the episode when you are definitely treasuring every minute you've been together with your friends and even your teachers because high school doesn't last forever, but rather through reminiscing the wildest, funniest, craziest, happiest and saddest moments you have done in high school will not be forgotten until the end of time.

Being a high school student confined with assignment, laboratory exercise, paper works and some friends issues is truly difficult, but think if you have goals in life and you really want to achieve it as soon as possible, you will do all the things you can, even there are hindrances. Each one of us wants to become successful academically. And now, they say there is a part of our life as a student where we learn things at the same time we do fun and that is high school life.

Prasadi Academy gave me many new experiences, new achievements and new friends. Choosing

Prasadi was the best ever decision of my life. The environment we got from **Prasadi Academy** is just remarkable.

Proud to be a Prasadian!!!

Anshu Bakhati
V8

STRICTNESS

Studying in Prasadi was my decision. Whenever I heard my cousins talking about Prasadi, they all told us, "It's strict...." What? Ok, to be honest, it wasn't so when I came to Prasadi, it was completely different from what I heard to what I felt. Following rules and regulations and submitting homework on time aren't part of strictness. These two years, I spent in Prasadi were awesome. Memories with friends are wonderful. Being a Prasadian I have learnt many things. Learn with memories and create fun in strictness. Thank you!

OUR PICNIC

“Sometimes you will never know the value of a moment until it becomes a memory.”- Dr. Seuss
 Yes, it's true. Turning back pages of my life one of the remarkable and memorable day was our picnic day. Our picnic spot was Tribhuvan Park. I have already been to the park six times before so I thought our picnic would be boring. I was totally wrong. It was amazing and incredible which I had not expected. This credit goes to my friends, diligent teacher and staff members.

On Wednesday, around 6:30 we had to reach at school. There was excitement in my heart. I searched my section bus and sat on that bus with my friends. Everyone looked fascinating. We sang songs and danced in the bus. Good times pass so fast. We reached there, ate breakfast, rested for a while and started dancing. We all danced by making circle. All friends were very caring that I felt like I got a new family in my school. I realized that I had friends

whom I can call your second family. We took our class photo with our laborious teachers such as SKS Sir, MKG sir, KBP sir, etc.

After our lunch we again played truth and dare. It was funny moment. Then we had our lunch and danced for 15 minutes. I never wanted that time to pass away. But time and tides never wait for anyone, so like that the time passed. We went to bus. After our bus journey was started we danced there. We sang many songs and danced. Though that day is a memory, I and my friends recall that day almost every day.

PRASADI: A BEAUTIFUL MEMORY

“Sometimes you don’t know what you’ve got, until you lose it.” It just seems yesterday when we have entered in Prasadi as Prasadians but it’s tomorrow we’re going to leave being ex-Prasadians. We always say, “Tomorrow never comes.” I wish this tomorrow might never come because I don’t want to lose what I’ve got in Prasadi. Loving and caring teachers, wonderful friends, value of punctuality and discipline and of course hard work. But it’s the time to bid bye to all those moments, those two years which will make us feel proud for choosing Prasadi as our high school. These two years are the outcome of our right decision on choosing Prasadi. Prasadi is truly the blessing of god. Two years passed in a blink of eyes but what never erases is those memories of sleepless nights in exam and during homework submission, rushing to the canteen challenging 20 min break, those notices that comes without any fail, the schedules like bullet that when once had come out of the gun can’t return, the time is the time once gone it’s gone (sharp Prasadi time), bag checking and your heart pounding even though you’ve nothing, teachers saying, “Stand up and drop your pen” in exams. All these made our journey in Prasadi the best. It is unforgettable reminiscence. Morning class in grade XI would have been tedious if we couldn’t see GT sir at gate with priceless

and precious smile and charming face of URT sir. BBT Sir looking at the watch and saying “You are late....min” and PL Sir’s chemistry lectures. XI was really good.

But XII was the best. The friends, fun and fear of grade XII is the best of all. Laughing out loud in the silent class would have been easier than to control laugh with all those humorous friends. Who can forget the picnic? The day you dance from start to the end and next day you feel pain in every body part and you’ve got a leave but, for exam preparation. You feel happy and sad simultaneously. Some dialogues of our teachers made the classes more interesting.

SH Sir: I’ll put your roll no. here, Phenol+Zndust=?

BPS Sir: Jat padhtam Guru hi samarpitam.

KBP sir: Tell me the master plan.

BBP Sir: Padya padai garne ho.

SKS Sir: Stand up and explain the figure.

BA Ma’am: Ok, one student stand up and tell me.

AD Ma’am: Speak up, class speak up.

In Prasadi there are beautiful mementos which we create ourselves which gives us happiness and is immortal. In the last day, Chief Sir told, “I never give farewell to my students because once you’re linked with Prasadi forever you’re with Prasadi.” That was the most touched line somebody could have said in the last class. So, we’ve just departed from Prasadi not separated.

Forever Prasadian

Thanks Prasadi!!

Shrisha Bishwakarma

V12

THE DAYS IN PRASADI AS PRASADIANS

Everything is still in my mind from the day I stepped into Prasadi. I felt quiet nervous as it was a new environment and quiet surprise when the teachers started to teach without introducing themselves. I haven't enjoyed my grade 11 a lot. Slowly time taught me to face all the problems. Being awarded the "Student of the Month" was most grateful moment for me. All my friends and even teacher were surprised for this because I was laughing and a talkative in class. Even I have their belief. Prasadi provided me such good friends and wonderful teachers. The funny moment with friends and teachers will be always remembered.

Some of the unforgettable dialogues of teachers are:

AD Ma'am: Bachcha haru halla nagara hau.....

RKS Sir: There is deflection know, deflection by using Jockeeyy....

JPY Sir: All my dear student, look at this side.....

KBP Sir: Takka sanga gara hai students.....

BBP Sir: Haina ra.... K garxa year....

BPS Sir: If you are really my student then help me.....

SND Sir: Kura bujhi yo....

I'm never going to hear these dialogues here after. I didn't realize these things while I was studying here but at the last day, after reaching to hostel, I felt nothing remains now.

It's all gone away. I didn't only learn the syllabus of +2 but I learned the discipline, manner and enjoy the life within certain boundary. Each monthly test and terminal exam taught me to focus on my goal. I've collected several memories and good things in these two years. I thank Prasadi family from inner core of my heart.

I love Prasadi

Without hesitation, I can say

Proud to be Prasadian.

Nitesh Sah

WHAT WE WILL MISS

- **RKN Sir shouting out our name.**
- Sir you are a legend
- **BPP sir making fun of us**
- Never thought mathematics could be this fun
- **SKS Sir asking us to quiet down even though you could hear wind blowing**
- You held us in real place
- **RPY Sir asking us to keep our pen down.**
- All thanks to you ,Physics got much interesting.
- **GT Sir's killer smile**
- We will always remember
- **RKS Sir's 5 min motivational lecture.**
- If that won't keep you motivated then what will?
- **SH Sir smiling at our jokes**
- Thanks to you sir now I have a 30 inch biceps
- **KBP sir asking us to form a grand plan to solve numerical.**
- I could see you asking for double underlines in my dreams.
- **BBP Sir threatening us.**

- You treated us all with care. Respect...
JPY Sir's antennae.
- We could hear you teaching miles away.
RL Sir's sudden laughing
- Looking forward to dancing with you.
AD ma'am not being teacher but friend.
- Never thought of English as a subject until you taught us.
MKG sir staring at you
- Your accent was taught to imitate.
BSC ma'am's patience.
- "Yeah", "OK", "Right" She wouldn't start her sentence without saying these three words.
BA ma'am speaking without catching her breath.
- Your drawing is absolute beauty
GS Sir trying his best to make us laugh.
- Some jokes were a lot of fun to hear.
SSA ma'am getting angry and scolding
- She looks good even when she is angry.
BPS Sir asking us to teach him
- Biology felt like Biology for 50 minutes.
SR ma'am suddenly asking questions.
- Your handwriting is the best.

These two years of memory and experience is unforgettable. Thanks to all non-teaching staffs for caring us. We all had fun at some pint. It was a remarkable journey. "All good things must come to an end."

MEMORIES AFTER BEING PRASADIAN

We all know that school is our second home where we learn many things. I spent my two years in Prasadi Academy with so many wonderful memories, and moments which I can never forget. The first day of Prasadi was a surprise to me. I was given a paper full of rules and regulations which made me surprised looking at. Then, I thought that life in Prasadi was going to be very difficult.

bench partners. YRR Sir's and RL Sir's different types of comedy between the classes are also memorable.

Some of the memorable dialogues of teachers are:

RL Sir: Sooo.....sad (and his laughter)

BP Sir: Monopoly market is the market that is what.....What happens?

SP Sir: I am not telling to them but I am telling to them, ohh ...

But slowly the days passed and we became familiar with those rules and regulations.

The noticeable point is that Prasadi changed our life: taught us to be in perfect discipline, have a good manner and the value of time too. Other unforgettable memories are: unexpected bag checking, gossiping and laughing with

BBT Sir: Do Do la classwork do , still one minute left....

Now it's time to say goodbye to Prasadi. I also want to thank Prasadi for teaching me discipline, value of time and also good manner.

Sudira Nepal

T13

MEMORIES

I can vividly recall the first day in Prasadi. The very first class was of BBT sir. We all had reckoned that there would be introduction between the teacher and the students, but to our surprise he started teaching. My time in Prasadi passed on and gradually, I became accustomed with Prasadi's rules and regulations so it didn't seem as a burden. Last couple of months of class twelve was the epitome of my high school experience. The highly awaited picnic was worth the patience. When that day finally arrived everyone danced like no tomorrow. I couldn't even stand up the next day. Prasadi taught me the value of punctuality, modesty and discipline while still giving time for enjoyment. The classes of RPY Sir, SH Sir, RKS sir and AD ma'am will always remain in my memory. The valuable lessons by the teacher from the textbook or as a motivation were amazing. I'm glad to be accompanied with such great friends in my high school years. Even though I had to leave my town and family for better education, I didn't feel the loneliness I had imagined I would feel. All credit goes to my friends. The pivot of changing my teenage years into adulthood was Prasadi. I will always be grateful to Prasadi for this. And to juniors reading this don't let homework and practical be a load to you. And always remember whatever you do in life echoes in eternity.

Aayushmaan Subedi

LAST DAYS IN PRASADI

Time and tides waits for none. Felt like, it was just yesterday, when I took my first step in Prasadi, as the first day. But two years had already passed. We knew, last week of Falgun were our last days in Prasadi, but unknown about last day, we were quite surprised to attain mid day of the week as our last day. At the same time we were curious to attain our last program greeting goodbye to Prasadi.

The last day didn't end here. But when I was heading towards exit from Prasadi, it reminds me of the days I spend in Prasadi with friends. Various feelings and thoughts start to emerge. It was the feeling of attachment to Prasadi, its daily routines, classes with classmates their talks and laughs, teaching of teachers.

I could see the same emotions among my friends, they burst into tears. But those of mine were hidden behind my smile. Then, this last day made me realize how memorable days I had in Prasadi. Even the bitter time of those days seemed sweet days and every moment was unforgettable.

Surakchya Bajracharya
V12

TWO YEARS IN PRASADI

Each and every day spent in Prasadi are hard to forget, and were memorable. Life runs with happy and sad chapters. The joy of getting enrolled in Prasadi was among my happy chapters which now have collection of much more memories inside it. The discipline, care, effective teaching, motivational speeches, homework checking etc. always had its own importance in Prasadi. The continuous hard labor resulted in good results. Though the beginning days were struggling and tough to adjust, eventually it became interesting and comfortable to adjust with the inspiration, care and love from the teachers in Prasadi. Prasadi will teach us the importance of time. We will know its value after we leave and graduate out of Prasadi.

Many things inside Prasadi were unforgettable like:

- Surprise bag checking
- Unlimited joy in picnic
- Monthly Tests
- No leisure period
- Panthi Sir calling "Yesterday Absentees"
- Style of teaching of KBP,RKS, BPS sir in fun way.

Prasadi is the best place to show your talent and to improve your education, talent and study style.

THANK YOU PRASADI

Smell of a new uniform, huge bag on my back, largest shoes on my feet and an umbrella in my hand; kind of dramatic start to an amazing journey. P3, it brings so much of flashbacks. It was the grade XI's only section to be taught by SH Sir. We were totally amazed by his voice and obviously his way of teaching. He is surely all Prasadian's favourite. Well, without the craziest friends, P3 wouldn't have been amazing for sure. And then classrooms changed and so did some teachers. RKS Sir's "Physics is hard, so look here", RL Sir's "So Sad", KBP Sir's "Nonsense" will be missed. And SH Sir's each and every punch lines will

be missed. I felt that V12 section, our grade XII was the warmest class in Prasadi and so were the students. Countless memories were made, memories of life that's been loved. People, who we never knew existed, are now our best friends and for that I'm really thankful. Thank you Prasadi for actually making us know the real meaning of struggle for existence and giving us wonderful two years. And at last what happens when phenol reacts with zinc dust.

ENCHANTRESS THE CHAOS

“Something with inner beauty will live forever like the scent of rose.” How well do we follow this quote? Are you sure you live up with inner beauty? Well, a lot of questions and answer is just the silence. In engulfing silence, we still have the question AM I BEAUTIFUL?

The chaos of beauty is rooted. Every one of us live to fulfill the chaos. Our soul, mind, heart is taken over by “Enchantress”. We live upto the words of the judgmental society. We feel insecure, ugly and unworthy of what we have just because we hear the regards from society.

The societies’ opinion matters so much to us that

we spend hours working on improving ourselves. Not in a positive way here. Do I look better in this dress? No, I look fat. Which shoes will go with it? Oh, I have got to put on some make up to hide these.

I have a question, when will we please ourselves when we are busy pleasing others? A scar has thousand stories. The story hidden from the society. The story that lies all alone in darkness.

We need change. We need courage to change. We need to really improve ourselves and improve here is the real one.

After all Beauty does not last forever Name does.

I know Albert Einstein because of what he did not because of his looks.

ME

Listen and learn,
Those vibrations are mine.
See and recognize,
Those images are mine.
Touch and feel, those beauties are mine.
Read and understand, these words are mine.
My name is me,
I mean to me,
Don't ask who I am
My introduction itself is me.
My history, my future,
My dream, and my aim,
All just within me.
And do not tire yourself,
Do not roam so much,
Just stand in front of the mirror,
There is the story you want to read,
There is the pain you want to learn.
Learn from the past,
Live the present,
And see your bright future.
I love only me,
So, I never hate other.
I respect myself,
And I never get chance to ignore other.
Kill tension before tension kills you,
Live life before life leaves you!!!

CHAPTER ONE AND CHAPTER TWO

Whenever I recall those bygone days I become more nostalgic. The scenario of first day at Prasadi Academy is still fresh as a flower with dew in the early morning deep inside me. I was stepping in to new environment.

Chapter one at Prasadi was like an adjustment. Managing all requirements on own, homework, practical, hair cut and proper school uniform was really a challenge for me. Time passed and chapter two began. Confident, discipline, hard work, dedication had already installed within me. Truly speaking, it was in chapter second, where I learned what life is and how to strive harder on my studies because Prasadi taught me how to stand after falling. Teaching faculty was like oxygen. They had encouraged, motivated and inspired me to struggle and labour hard for study. URT Sir, BPP Sir and GT Sir's smiley face always inspired me to do my best. My access to books of different publication would be impossible without library ma'am.

I could never forget those monthly tests, Prasadi ball pen, bag checking and 20 min break. All friends will be missed badly who have been with me throughout the journey. I could not even forget those classmates who always helped me by bringing an

extra ball pen for me. These memories would be incomplete without my roommate, Amarnath Mahato who made this journey more colourful.

These memories will be cherished till eternity. Being Prasadian was a great experience.

Once a Prasadian, Always a Prasadian!!!

TO HIGHSCHOOL THAT BECAME HOME

As I hold my pen with a paper in front of me, trying to think of an “eye-catching” first line, a stream of mixed emotions run through me.

Honestly, studying in Prasadi was something I had never thought of doing. I had always pictured this place as a school filled with studious students and no fun at all. But, with the passing of time, my thoughts about this place totally changed. Well, back then, I was too quick to judge a book by its cover. But, I repeat, my thoughts about this place has totally changed.

There are so many memories I've got here. From trying your best to control the giggles in the middle of lectures to getting caught in action by teachers; from being last one to enter the classroom to being the first one to leave the class and running a marathon to reach the class on time; these two years passed in a blink of an eye.

It is so difficult to sum up what has never been a roller coaster of a journey at this place. To try and write about all the things that all of us have been through, done and achieved at Prasadi, is a tough task.

As I embark on this new chapter of my life, I will always remember the happy faces in which I have become so accustomed to recalling each day. Maybe, the very fact that our time at Prasadi can't last forever, makes the past two years so valuable. It's funny how the journey which seemed so long and tiring in the beginning is the very journey that is making me wonder where the two years have gone, and how they galloped by so fast.

Welcoming the new undiscovered paths we are yet to roam,

I bid my sweet farewell to the high school that became a 'HOME'.

TWO YEARS EXPERIENCE IN PRASADI

I spent two years in Prasadi Academy and I have learnt to be punctual, hard working, humble and calm.

Although Prasadi looks as if it doesn't allow students to entertain but actually this institution is full of joy and freedom because each and every teachers used to make us laugh and entertain even in minor things related to text books. I like the way teachers care us even when we are outside the school premises. Caring, supportive, friendly nature of teachers and friends really impressed me. Prasadi is not allowing students to have different hairstyles, dress up and to make noise. This doesn't necessarily mean that Prasadi is strict institution. It suggests that this institution always cares students and tries to polish them with ethical and moral values. It indicates that it has realized consequences of being objectively beautiful. This encouraged us to do hard work. I feel myself lucky to be member of this institution. In these days I am feeling as if I have just started my study here when I left school with bag full of memories. I think Prasadi is sure to enhance its name and fame beyond the territory.

This institution is supposed to be a part of my life. This is the first time I've ever felt so much emotionally attached with it. Whatever happened in these two years, in fact, it encouraged, motivated each and every Prasadians to nail every hurdles in future.

RELATION BETWEEN PHYSICS AND PRASADI

Prasadi is like an open system
Where sharing of matters like
Thoughts, knowledge easily takes place.
By using the method of pumping
Teachers transferred the ground level students to higher
level.

All the Prasadians interfere constructively
To brighten the fringe of Prasadi
All the negative vibration of students
Are damped here.

Quality developed in Prasadi
Acted as a fuse which
Prevented fear during examination
As light cannot be escaped from black hole
Prasadians cannot escape from the rules and regulations.

HAUNTING MEMORIES

As I sit beside the window sill
 The fun we had in the class
 Together as time passed,
 The friends I made,
 The pranks I played
 Everything comes back
 As I watch time fly by.

The things we used to do
 When we sat inside the class
 And remarks we used to pass,
 The disobeying of teachers
 And backbiting about others
 All comes as a flashback,
 As I watch the days pass by

The love we showed in our long feuds
 The way we helped each other.
 Drifts in the back of my mind.
 The laughter that lit our class
 And the life we spent together
 I feel the presence of an energy that never fades.
 No matter where our future may lie
 The memories will always keep us together.

FEELINGS

Those feelings that I felt
The feeling of being unspoken
Those feelings of guilt.
Are harming me on the court of every evil day....
All days are corrosive...
All days are penetrating me,
I know it's hard...
It's really hard...
Hard to please yourself for someone else happiness...
In spite of all these,
You always treated me like a god....
I have got the feeling of god
For a simple living creature called "Dog".

MY DAD JUST NOT ONLY TURNED THE CAR'S STEER BUT MY LIFE TOO!

“Yes you can!” “It’s way of your league!”, “You are strong enough!”, “If your elder sister can, why can’t you!” So, let me start about my passions and my dreams. During my school days, I was a very good student. Just like an apple of my parents’ and teachers’ eyes. I was enthusiastic

2017”, “Junior Princess 2069”, “Dancing Stars” and many others.

My life changed to be a roller coaster ride after my arrival of SEE result. I secured A+ and everyone suggested me to study at Prasadi Academy. Prasadi has the greatest prestige all over Nepal. I was in dilemma to either to study management at some other school or science at Prasadi. The week later with same dilemma I and my parents went for admission. My life turned when my dad turned his

and active student from dancing to singing, scoring highest marks to involving in volunteer activities. Since then, my family being related to health field, they always dreamt me to become a successful doctor, but I aimed to become a top notch fashion designer. I even won many beauty pageants like, “Miss Teenager International Nepal

car’s steer towards Prasadi Academy. I got admitted at Prasadi. I am sure most of you may be here just because your parents want. Trust me! They made the right decision for your life.

For couple of months, I was stressed and couldn’t believe the fact that I was a Prasadian. I went through anxiety because most of my colleagues

were in other school. But the joy lies here as every day I can revive a new sprit in me when I recall the best memories of my life in Prasadi Academy. Past two years was worth being a Prasadian. My parents made the right decision because Prasadi was given me a lot. Our Prasadi is incomparable. Take an example of me, it was hard for me to pass the internal examination but the re test helped a lot to

may make us even happier. Today I have realized that life is all about exams, struggles, hardships and patience and it becomes even more beautiful when we acquire the skills to beautifully take them.

In this huge world, there are one millions of dreams but the only thing that separates winners from losers is the amount of hard work they put day and day out. We all

secure good marks on Board. In my opinion, the most important thing in life is to believe in ourselves. We must believe that giving up is never a solution. The next is commitment. We must set our goals. Believe me you'll never get a teacher like we have in Prasadi who motivates and praises you, who may be harsh with words but crystal clear by heart. Let's be pessimist because opportunities are waiting that

know that it is hard changing our life but the person we are going to be all depends upon us. Be proud that you have the excellent mentors and the excellent environment in Prasadi. Make huge out of it, make yourselves happy and yes! do tons of weird things and make life happy. Cheers to positive life ahead! Cheers for being a proud Prasadian!

PROUD TO BE PRASADIAN

Hello! Everyone, it's me Prakriti Mahaseth from Janakpur who joined the standard educational institution, for higher learning, creating the excellent academic environment i.e. not other than Prasadi Academy. If we talk about Prasadi, it is one of the best institutions all over the country that encompasses academic excellence to meet the pace of quality education for individual. Prasadi develops the different quality of success in one's life i.e. time management, self confidence, love, collaborative, leadership, sympathy, enthusiasm, patience, wisdom and unity.

I woke up being nervous thinking about the first day of my school. It was beyond my imagination that the teachers entered in class and directly started the lessons. Really, Prasadi made me punctual, honest, cooperative, bold and disciplined. I am so grateful to Prasadi which cared, loved and supported me a lot. All the challenges that we have faced in these two years built up our confidence to stay awake and challenge our future. If I have to judge Prasadi then it's really awesome.

The teachers are well experienced. They are really the character sketched in art book of my life. They have made the 50 min. period really one of the best moments which make us feel much enjoyed and entertained. They used to make us free from being

bored and would bring charm in our face. I will never forget the love, care and interactions which I have done with all the teachers and friends.

School was my temple

Teachers were my god

In order to miss Prasadi

I had taken a lot of memories which would remain

In my mind and heart forever

Golden Pride to be Prasadian!

Prakriti Mahaseth

An interview with Swoopna Suman

Favorite Place:	Pokhara
Food:	Fried chicken
Clothes:	Comfortable clothes
Colour:	Blue
Hero:	Bipin Karki
Heroine:	Sonam Kapoor
Male singer:	Ed Sheeran
Female singer:	Billie Elish
Player:	Lionel Messi
Leader:	Ranju Darsana
Writer:	Narayan Wagle
Book:	Palpasa's Café
Own favourite song:	<i>Ke Saro Ramri Bhako</i>

Swoopna Suman, who was born in Naxal, Kathmandu, is one of the brightening stars in Nepali music industry. He started his cover songs in 2012. In recent days he is quite busy in singing and composing lyrics. He is quite popular among youths, who have given his melodious for his dozen of songs within seven years' of time. He is busy on stage performances both in Nepal and abroad. He is the one who has stardom at early age of 23 and has thought to continue his journey in the field of music. The students of Prasadi have taken exclusive interview with Swoopna Suman.

You seem to have been busy these days. What has made you so busy?

Well...so to say, I got back to back tour recently. After the tours, I am so busy with my new song at studio. And, I am

busy with usual normal day works: studio, gathering of friends, physical exercise and practice.

When did you pave the path of singing?

Actually, I started singing when I was in class four. I along with my friend was chosen to perform the Ramayana at school. We had been taken to India. We had to perform on the birthday of Sai Baba. It was the provision that all selected ones should recite hymn. I also sang. All of them praised my sweet voice and made me sing again and again. It gave me strength that I could sing and then I started singing gradually.

How many songs have you ever sung till date?

In fact I haven't counted them yet. However, I have started singing as a cover singer since 2012. Then

after, I have started writing original song. Perhaps, I have ten to twelve original songs at my disposal.

Have you ever got the offers of acting as you are handsome?

Honestly speaking, there have been few offers. Many of them have offered to make a movie on my life too. But, I am so honest to my profession. The people have recognized me. The reason behind of recognition and love is because of my songs. Therefore, I want to focus on music. I don't think I would be so good at acting.

It is our immense pleasure to know about your childhood. Could you share us some glimpses of it?

Ok...I spent most of my childhood and school life at army school and its hostel. There were better facilities. Sports were so good. But, physically I was not well-built. And, we had to run for an hour every day early in the morning. We had to run five kilometer at five in the morning, but I couldn't run. I used to get stomach ache so I used to spend much of my time at library. I used to love books, especially literature books. I used to write too. I used to spend

much of time reading novels. I was fond of poetry. My friends used to play where as I used to read books. It aroused my interest in writing lyrics. As a whole, my childhood was memorable and interesting.

How did you get interested in singing although your family wanted you be a lieutenant in army?

Well, my father was an army. Recently he has got retirement. I studied seven years in army school. My parents' mentality was that I had understood the army lifestyle as they had kept me in army school for seven years. They made up their mind to send me to the same army school to complete + 2 level for preparing me for the second lieutenant. The seven years' time in army school was enough for me. I knew about them; their life style, their camp, the way they get together, the way to bed and the like. Then I thought it wasn't my choice. Recently I had kept long hair, which was the relish of past, but it wasn't allowed there. I had to make a short hair. What a pity! We couldn't put our hair long. Therefore, after SLC, I informed my parents that I wasn't interested in studying in army school. I didn't want to be an army. I requested them to let me read what I liked. They told me to study science if I didn't like army school. I informed

them I couldn't study science as I was weak in mathematics. They asked me about my choice. I informed them that I would study management. Though they cried in front, they didn't deny. So, I studied Hotel Management and Travel and Tourism in plus two. Slowly I started singing from class XI and XII. Gradually, family also accepted me.

Can you tell us about your education journey?

As I told you before, I studied in Army School from class 4 to 10. Then I did my +2 in Hotel Management at Basundhara. After reading for two years in +2 what I felt is that I had a great interest in music and wanted to make it as a career. I didn't have any knowledge about music when I started it. I didn't know how to sing, play guitar, etc. Later, I learned to play guitar myself. I learned these things from YouTube. I also studied course of music in

What is the value of education?

Right now, I am talking with you it is also an evident of the value of the education. Time and again I have been speaking in English. If I hadn't studied I wouldn't have done so. Recently, what we have been doing in our life is the outcome of education. In my view, we can do nothing at present if we don't have education. In the Stone Age people got the fire burnt having learnt somehow, at present, modern humans have been preparing to make a house at moon. I believe all these outcomes are due to education. Education has played main role to make a person and the world a better one.

How do you look at your education journey?

To talk about my educational journey, it isn't completed yet. In fact, I have been learning

online. Luckily, I got few free courses from Yale University in YouTube. Recently, I am doing Diploma of music in Jyasa Culinary. Side by side, I have been taking the theoretical courses of music and vocals.

What do you think is the most important factor in education? Where should the student have concentrated?

First and foremost, I am a student too. Students must study. But we need not learn in life by parroting. I feel that we should study by considering its utility aspect in our real life. We should not study having pressure of self, house, society or to get more marks. However, we need to study to get something learnt. One should prepare on what he/she has interest to be. For example, if I want to be a doctor, I should start preparing the same. If I want to be a teacher, I should prepare for that. I feel that one should not feel pressure of study. I must reiterate, there must be its utility aspects in his/her practical life and future. You should learn to enjoy your learning about something.

everyday a new thing and getting a new experience. I don't believe that one should learn only by reading books. At present, I am in musical field. Every day I meet different people and I learn many new things from them. When I am singing in studio my seniors instruct me the things that I need to improve. Their advices are the lessons for me. These days, my education isn't books-oriented, it is all experience-oriented. The more I went out the more I learnt. Definitely, exposure to the world has expanded my horizon of my knowledge.

All people have their own secret. Do you also have some secrets about your education which others don't know?

Honestly speaking, I am weak in mathematics. However, I secured distinction in SLC. I was so good in those subjects: English, Nepali, Social, H.P.E. The second secret was that it was quite difficult for me to pass Accountancy in class XI and XII. Fortunately, I got better marks in those subjects.

You had got a complete change once a producer told you that he wouldn't record your song as he was asleep hearing your song. How did it bring change in your life?

Of course, it was the fact of the very beginning. You know, I started from cover songs. While doing so I realized that I should contribute something to Nepali music industry. So I realized to make my own song. Then after, even I started some myself. I wrote songs when I was in class 7. You also know that what would be the song of a person who was in class 7? It was so tasteless like boiled water. I had kept 5 or 6 songs before I asked a producer. I requested him that I wanted to sing his original song although I was doing cover songs. He agreed and asked to sing a song. He sat on a chair in front of me. And I started singing with a guitar. As I sang a song he said it was fine. And requested to sing another; he went on saying next. Before I could sing a fourth one he was asleep. It made me realize that it wasn't good. I had only thought it to be good. It has some lapses that I must work upon. I motivated myself to do better. Then after, I wrote the first song "Ke Saro Ramri Vako". It inspired me and started writing/singing songs and the like.

Once, you have said novels and English songs are your teachers. Why have you said so?

I believe that, song writing is a literary work. Bob Dylan has won a noble prize in literature. He is a song writer. As a song writer what I felt is that the novels, others songs helped me write a song because they are all about product of imagination. And, I always wanted to write songs being motivated by imagination.

You are influenced by singing style of singer Ed Sheeran and you made the same pattern in your singing. What did he have that influenced you?

Well, I discovered Ed Sheeran when I was a voracious reader and explorer of online. I searched different artists and their singing. In the due course of time I heard Sheeran's song in YouTube. After hearing two or three songs I realized it was the songs which had made up mind tossing. Though they are simple and sweet, they are full of meanings and needed a deep sense of understanding. I started searching who he was. He was a popular singer of UK. Then I heard his album, knew the lyrics. I also learned the technique of playing guitar. Ed Sheeran is a person who has a great influence in my life I love to hear his song: 'Heart doesn't break around', 'Lego House' and 'Give me love'.

What would happen in your life if you hadn't come in pop songs?

Hm....I don't know what I would be, I didn't know rock songs. Maybe I would be singing film songs if I hadn't been in pop songs.

Different people have different views for sources of happiness. What factors do you consider as a source for your immense pleasure?

Firstly, I get pleased with those songs when audience and well-wishers would find their connection with my songs. I get ecstasy when they express that my songs would help them to eradicate their loneliness. Secondly, I get pleased when my family feels proud of me.

You started your singing career being a cover singer. Later you had solo songs, stage performance and filmy songs. In the courses of time how did you create your brand?

Frankly speaking, one needs to work hard if one wants to do something in any field. One needs to have consistency and patience. And, I think I had all these three things. These supported to each other as a stake holder. As I stepped and followed them, I achieved my goal.

Different things play roles to get success in one's life. What do you think is the most important to get success in one's life?

I don't think I am a successful singer till date. I am a steady boy, who wants to do something. Talking about success in Nepal, there are many great brands. For example, "Nepathya". They are legend. However, they are still working hard in music, doing new things. I feel that I still need to do a lot of things. I have been composing music and learning new things everyday.

Everyone has the goal of their life. Obviously, you would also have. Can you share us about your goal of life? What are you doing to achieve your goal?

Mm....My goal is to be happy and sing songs. They are my future goals. I have been working on them and will be continuing the same. In the passage of time I need to update myself and need to do better. I shouldn't sing in the same style that I sang before. I need to update myself and learn more which suits to time.

It is possible that people may switch their career in the days to come. Do you think singing will be your life long career?

Actually, I didn't know that even there would be career in music when I started singing. I didn't realize that I would make a living on it. I hadn't thought to live with it. But I would get the way, the more I involved. Now, it's my career. I will have my career in music in future too. At present, I only sing and compose lyrics but I hope I will even produce it in the days to come. Anyway, I will involve in music only.

You got your fame after singing Ke saru ramri bhako. Is it your turning point of your life? What do you think as a turning point of your life?

Ok, the turning point in my life was a day when I came up with the mentality that I would sing. Then I started playing with the guitar. Indeed, my mindset and desire to be a singer was a turning point in my life.

Every song may have context or situation which catches or explains or may have some relation to certain situation. Does your song Ke saru ramri bhako has any context?

To be frank, the songs I composed before weren't liked by producers. Equally, I also felt that they weren't so good. And then, I started listening Ed Sheeran's songs. I thought to make my song in the similar flavor. Another, in due courses of time I got inspired by my friend who was in the USA.

Moreover, I made a song making her a character. We are close friends. I call her time and again. I wrote this song for her.

You have sung many love songs. Was there any reference for them? Was it of your love tragedy?

(A long laughter)...I am just 23 years now. In the teenage it is usual to fall in love and break up. I also had a lot of experiences. I converted all my experiences into songs. *Kasari Bhanu* is my story of class XI. *Hello* is a story when I was in class XII. All songs are somehow connected to my life.

seniors. Then, I knew it happened to my pattern and style. I felt to continue it and started making some pattern.

You don't have any interest in any other genre of songs. Do you think you will be only in cover songs and pop songs?

Err.....It's not like that; I love country songs at present. I also like hip hop. I love different type of filmy songs too.

You have different identity in YouTube sensational. How did you get such different identity?

Actually, I don't know. However, I have a song *Kasari Bhanu* and I think the credit goes to it. This song became

You give more importance in music and style. What is the cause for this?

(Looking serious)...I started my music career in 2012. There weren't many young artists. The songs that we heard only were from our seniors. There were Nepali songs only on television. I felt we had to do something new at that particular time. Despite complaining about it I felt I had to do something myself. I started composing what I felt lacking in

so hit beyond my imagination within a few days of its release. Many people commented about it positively. There were maximum views in YouTube. All things happened beyond my imagination. I got many offers for the shows. People started calling and texting me. Others started covering songs. Others also started singing on concert. My song got tuned in different places. After this song, I got fame in the industry, people assumed so.

It has been criticized that cover song has affected the originality of original singer. Is it true?

Truly, I started with cover songs because I had no idea of singing. I wished to be a singer but I didn't know the process. Anyhow, I had to sing a song and make other listen. I did the same. I sang a favorite song and recorded. Then people recognized me and knew I had a good voice. I have never thought to change the originality of one's song. I don't think each cover singer thinks to distort the original song. Many singers might have done cover singing upon my songs. I have never blamed them as if they distorted my songs. I think they are trying to present something new. I feel original singers should suggest how we need to do it better. It is growing in our musical industry. If they are motivated they will also grow.

Could you tell us about your perception of Nepali music?

Fine, there were a few artists in Nepali music industry in past. They brought our music in certain pace. Recently, the new artists in music industry are different than that of traditional. I think the music industry in Nepal is heading to a new height.

Generally, youngsters can't have right decision. What do you think is the most necessity for a right decision?

Well,...we need to have better understanding of things before we take decision. I think we should take decision having proper knowledge, understanding and over all evaluation of ourselves. Otherwise, we get sunk if we jump being novice. We need to learn swimming before we dive.

You are a youth star. How do you feel about stardom?

Err..., of course, there is a kind of certain fame at my disposal however; I don't feel myself to be a hero. I am an artist, who is loved and listened by listeners and audiences. I think name and fame are short lived. It shouldn't matter us. We should know our ground reality. Depending on our ground reality, we should always be aware how we need to start, exist and end.

Being a singer and composer, what responsibilities are there for society that you need to bear?

The responsibility of the singer and composer is to listen the comments of listeners and viewers. Being a singer cum composer he or she has certain listeners and viewers. We shouldn't manipulate them, ask them do something here and there. We need to motivate them for well doing, study and encourage doing what they are fond of. As an artist we have power to motivate people. We need to use our power to motivate people for righteous works.

As you agreed that artists should have social responsibilities, what sorts of social role are you playing at the moment?

Just few days back, I have counseled small children. I have motivated them. There was a small boy, who used to live in my village, wanted to play the guitar. However, he felt that he couldn't play well. I used to tell him that he was a good guitarist. I motivated him to practice more. I suggested him that he could do better if he kept on practicing. I was pleased with him because after two years he had his own band. I have tried my level best to contribute in Nepali music industry. If I had a good song, it wouldn't only pay back me, it would also be a little contribution to Nepali music industry. Recently, even some of the Indian musicians made music videos of my song. An Indian YouTuber came upto me and interviewed me. I made Indian music lover listen Nepali songs. I feel, it is my great achievements.

It is a blame for you that you don't give time to media for interview. Do you have any reason?

The fact is that I am a bit sensitive to camera. I feel uneasy in front of camera. Secondly, I don't want to give interview unless I have some new work. I don't feel easy to repeat the same thing about me in the interviews. In reality, I love to meet media persons, love to give interview, love to be socialized, but I detest repeating same thing again and again.

There are some artists who have an active involvement in politics. Have you ever thought to join politics in future?

An artist should focus what he/she the best is. Being a civilian I should be aware of politics. It is disgusting if I don't know what's going around. Such as, the present prime minister's name of my country. But I am an artist. People listen my music. I would be nowhere if I thought to be hero in a party office.

Youths feel happy to make someone as a special friend. Are you in relationship?

These days, I have totally focused in my work. So, I haven't got chance to go around. It is not good to have girlfriend if you can't give time. It would only create conflict and misunderstanding.

Being an artist you have many followers. Any experience of getting proposed?

Obviously, there are However, I haven't thought of accepting them.

Have you made any plan for marriage? What sort of marriage do you prefer: love or arranged?

I have no plan for marriage at present as I am only 23. I think I would marry after 30. Mm ... I believe in love marriage. I love the romantic things a lot.

As you are so busy that you said before. How do you spend your days?

In the morning I go to gym for one hour. As I return, I spend my day with my family having food with them. Then I go to the office and look after the things. In the evening I practice songs. Returning home after practice I dine and sleep. I try my best to give more time to family as far as possible.

How are you passing your time?

Time is precious. It directs and changes the life. Therefore we have to have a creative leisure time. In my free time, I play game, play guitar and if there are books I study them. Otherwise I hang out with friends.

People have to go through sorrows of life as life isn't a bed of roses. What things are there those make you feel sad?

The appreciation of my work by listener, viewer and my family makes me feel happy. On the contrary, there are many reasons to be unhappy and sad. I feel unhappy when I see the bad condition of roads, system etc. In fact, there are many things that make us feel sad.

What will you suggest us to deal with failure?

In fact un-success itself is the beginning of success. I never take failure in negative sense. I always learn something from failures and try my best not to repeat them. I am the best company myself. I am the one who does lots of thing myself.

How do you define happiness?

Happiness is never static. It goes on changing. We learn to be happy in small thing and need to reduce unnecessary desires. If we do so, we can be happy.

People are always trapped in sorrowful situation. How can we overcome our pain?

In fact pain itself is source of happiness. We shouldn't forget mental comfort when we are in sorrow. It minimizes the pain. I speak to myself a lot when I am in pain. I convince myself for not to worry and believe that everything will be all right. I meet my friends. I have lots of good friends who counsel in a better way. Family is also supportive; they counsel me in comfortable way.

Is there anything that you want to suggest to youth?

I feel in the present world there is high level depression, anxiety and seriousness all over the world that lead to the incidents of suicide. Teenagers may feel so. What we need to feel in this situation is that, sorrow is temporary. It has to end sooner or later. If you get afraid with nights, we need to know the dawn is waiting for sure. Therefore, I think we have to wait for beautiful morning. We always hope for good. We should overcome our negative attitude. We need to shift our cognition from negative to positive ones. All youths, students, everyone should maximum exploit their productive youth life to bear responsibilities and move ahead. It helps to make our utopia.

Name:- Ritina Tandukar
 Grade:-12 Sec:- T4 Code:- 2619
 Email:- ritina.tandukar 93@gmail.com

Memories:
 I thank prasadi for giving me awesome friends and life long memories.

Message:
 Do not miss the picnic. Get yourself some good memories.

Proved to be Prasadian

Name- Rashani Karki Grade- XII
 sec- T4 code- 8593
 Email - RasniKarki2001@gmail.com

Memo-

Starting the journey from N1 to T4 is almost over now. Those gossiping are going to turn into memories. Bag checking, asking for time & calculating it into seconds and that 30 min ajhai baki sa wala worst feeling is no more. Giving suntuwa award to the friends for banking in Top 5 was the best feeling & dance at picnic & dare games too.

message Auto is auto, life is photo if you forget me then see my photo

 Memories:

I had never thought that I will make such good friends. The best memory is picnic, hahaha the wild and crazy dance with my benchmates. All the gossips and jokes with my benchmates.

P.K.P sir say "Kaste chuchou kh aerol". hahaha. I will never forget those little mischievous things. Anyway I'm glad that I'll be leaving this place with lots of memories.

Message: For our juniour I'd like to say enjoy each every moment. Have fun in picnic because there will be no other fun in prasadi.

Memories- Honestly, Grade '12' was way much better than '11'. My high school life was complete package of entertainment. Those uncontrollable laughter and gossips during the class. Compromisation with short-bread wild dance moves in picnic, canteen food. I am gonna miss all of this.

Message- Enjoy the little things in life, because one day you will look back and realize they were the big things.

Sign- *yashoswi*

 Email: shrestha.shrayesh0@gmail.com
 Memories:

I made some new friends in prasadi. Talking non-sense things in class, coming late to college, jokes of YEE SHI that made us laugh, spicy food of canteen, not completing homework on time, compliments that we got from chief on the photoshoot for not cutting hair, this single sheet is not enough to write the memories made in prasadi.

Message: Follow your passion success will follow you.

Sign: *Shrayesh*

Memories: These 2 years entirely is filled with all good and bad day memories. Some days were quiet hectic but dealing those situation made me capable and some days were very good and gave me idea how friends and teacher can play the role of family. Those classes, results and picnic dance are sweetest part of memory I made here. Spurtful dialogues of teachers are unforgettable. I will miss Prasadi alot!! all teachers and friends I made here.

Message: Listen! If you are sad for a hectic day u're having, don't be! Each person has good and bad time. Just face off the bad time u're having and wait for good days. Surely it will come back.

Memories:
 Prasadi has given the best experiance in the Picnic day as well as at the school. Especially to me has taught being practical in life. The leg ache & some throat after picnic was also worth it. Hard work is the key to all the dreams of life. No matter what you will always love this school till the end I will miss all the teachers. SSA mam as a mother figure. SR sir is fun and teaches so well. RPY sir is funny. SR mam is sweet. GT sir will explain repeatedly if not understood.

Message: Never lose hope and be confident. Labour hand and develop habit of reading.

 Email: divaspaudel@gmail.com
 Memories: The moments that I spent here are some-what my happiest moments. Denish's laughter, our Abhishek's face when we heard Gandhi joke, Inesh's Nagin dance at picnic, our Nitosh's dialogue 'hoi na tu' was more than epic & lastly our Pawan's innocence whenever he got scolded was really something. All these moments I spent here with my friends will reside in the deepest part of my heart.
 Message: Fate may've scaled up your destiny. But the journey is yet yours to write, so write it beautiful.
 Think prasadi as a home, teachers as parents & friend, at brothers & sisters, only then will you know the joy of learning.....

Name: Shreya Timilsina
 Grade: XII Section: V8 Code No.: 2679
 Email: shreya012@hotmail.com
 Memories: There are so many "lasts" in senior year, I was constantly trying to make the most of every moment. Somewhere in the process, I made handful of memories from P5 to V8 that will last for years to come. Making life long friends, inspiring classes of hardworking teachers, exciting practical classes, lots of homeworks and panic before every exams, cracking jokes and laughing hard until our belly hurts in that 19 minutes break, unexpected holidays and of course the dance of picnic, the whole 'PRASADI' family and much more....
 Message: PRASADI provides you with the environment outside of your comfort zone so that you can change, grow and transform. Make sure you hustle hard and bring the best out of you.

NAME : Ayush Deep Neupane
CLASS : XII SEC : V10 ROLL : 31
CODE : 8952
EMAIL : Neupane.ayush8952@gmail.com
MEMORIES : There are lots of memories in PRASADI to treasure forever. Those careless whispers, singing old songs always been LEGEND-DARY. R3 was good but V10, oh boy. What a platform. V10 boys were doper. PICNIC was Classy. SH's fandom for Man. Utd. and 'MERO MERO' on R1's class, always good. Everything was Beautiful in PRASADI
MESSAGE : Don't let anyone tell you. You cannot do something, Got dreamy, present it.
SIGN : *Ayush Neupane*

Name : Aakriti Baral
Grade : XII Sec - 'V-10' Code : 8909
Email : Dewdrop.aaku@yahoo.com
Memories : All those gossips, all the jokes and our V10' gang. All the moves together with the flow of wind. Those unexpected checkings, list of rules & regulations, non-stop chatting at class, patience we maintain for holding notices, annoyed faces of teacher. Inailon's tour. Picnic day and R1's dance. Those busy days due to homeworks. Even bitter time of those days seems sweet now.
Message : Chase your Wildest Dream.
Sign : *A Baral*

MESSAGE FROM THE SCHOOL CHIEF

I am delighted to share that **Prasadi Academy** is one of the leading educational institution in Nepal which has catered 21 years of education par excellence at its disposal till the date. I believe that a nation gets its recognition in the international forum only by creating an academic foundation for social, cultural, scientific, economic and technological development. The Academy always aims at establishing bench marks in academic excellence and holistic grooming to help our students to meet the career challenges in the increasingly globalized economic conditions.

In addition, Prasadi Academy inculcates the development in all facets of students' life for that it is committed to foster in its students, the pursuits of individual excellence and participate in full range of creative works. In that connection, I'm very glad to see our students' enthusiasm in publishing "**Prasadi Souvenir 2076**". It is a collection of literary piece, poems, articles, essays, travel accounts etc. of the students which I believe, it not only increases creativity of students but also broadens expression power which may evolve them as all-rounder.

I acknowledge the students, parents, teaching and non- teaching staff and society in general as our stake holders for their continuous support in taking this institution to greater heights. I always wish for their continuous cooperation in the days to come. On this occasion, I would like to assure you all for the quality education to address the demand of the society in the future.

I am extremely pleased and offer special thanks to the faculties and students for bringing out this souvenir in its final form. It will undoubtedly strengthen the relationship between concerned members of the academy and all.

I wish you all with a great future.

Thank you.
